

Metaversum develops and operates the **3D online world Twinity**. Twinity's vision is to link the real with the virtual world by building realistic replicas of the world's most vibrant cities in 3D. Twinity members can create a personal avatar, explore virtual cities, move into a 3D home, chat with friends, work, get creative, or just have fun together.

Twinity also offers businesses new ways of engaging with real people in real cities. Through virtual shops and branded presences, in-world ad campaigns, product placements, and sponsored events, Twinity lets you enter into a direct, emotional, digital dialog with your target group. Twinity is currently in public Beta. Founded in July 2006 and financed by leading venture capital firms, Metaversum has offices in Berlin, Kiev, and Singapore. More info at [www.metaversum.com](http://www.metaversum.com) and [www.twinity.com](http://www.twinity.com).

We are currently looking to expand our team in **Singapore** with a:

## *Junior Developer*

In this role, you will be a junior developer within Metaversum's engineering team in Singapore.

### **Job Requirements:**

- BS or MS in Computer Science or equivalent
- Relevant hands-on technical experience
- Strong C/C++, Java or Scripting programming skills
- Enthusiasm for solving interesting problems
- Fluent in English

Twinity will take the current state of the virtual world and turn it upside down to produce something you never imagined before. Join us, and help shape the future of the virtual world.
