

Metaversum develops and operates the 3D online world Twinity (www.twinity.com). This visionary endeavor mashes up the real with the virtual world. Twinity offers its members the ability to populate the digital world with their own avatars, design 3D homes, communicate with friends, engage in shared media experiences, work or simply have fun. Twinity is currently in its private beta phase. Founded in July 2006 and financed by leading venture capital firms, Metaversum has offices in Berlin and Kiev.

To strengthen our international team in Berlin/Germany we are currently looking for a:

Ruby/Rails Developer

You would work closely with our product managers and designers to build a large, high-visibility, innovative web application.

Your profile:

- 3+ years experience developing web applications
- Either expert knowledge in Ruby/Rails, or a strong desire to become an expert quickly
- Expert knowledge in all or any combination of the following: MySQL, JavaScript/Prototype/LowPro, (X)HTML, CSS, and related technologies
- Firm grasp on modern web standards and best practices
- Fluent in English and German

Additionally, we would welcome:

- Experience with XP and test(/behavior)-driven development
- A history of open source contributions (we support and encourage open source contributions based on work done at Metaversum)
- Strong sense for good user interface design and usability

If this profile matches your expertise, experience and aspirations, please send your complete application, including your resume in German or English, your salary requirements and a possible starting date, to jobs@metaversum.com with the position title „Ruby/Rails Developer“ in the email subject line.
